Highlights from TFNRegistry Roadmap Webinar

- Refreshed TFNRegistry redesign
- Somos Hub was introduced
- TFNRegistry users will access their Toll-Free Number by logging into the Somos Hub using an individual email address
- UI & API Users need to confirm your readiness now by ensuring your email address is unique to you and not a shared distribution list
- API functionality will not change; however, action will need to be taken

Industry Communication: Announcements, Resources, Webinars, Weekly Open Sessions, etc.

SOMOS®

API Users Key Takeaway

Functionality of the APIs will not change

Recommend setting up an API Key if you are not currently using one

⬇

Reach out to help@somos.com to get started

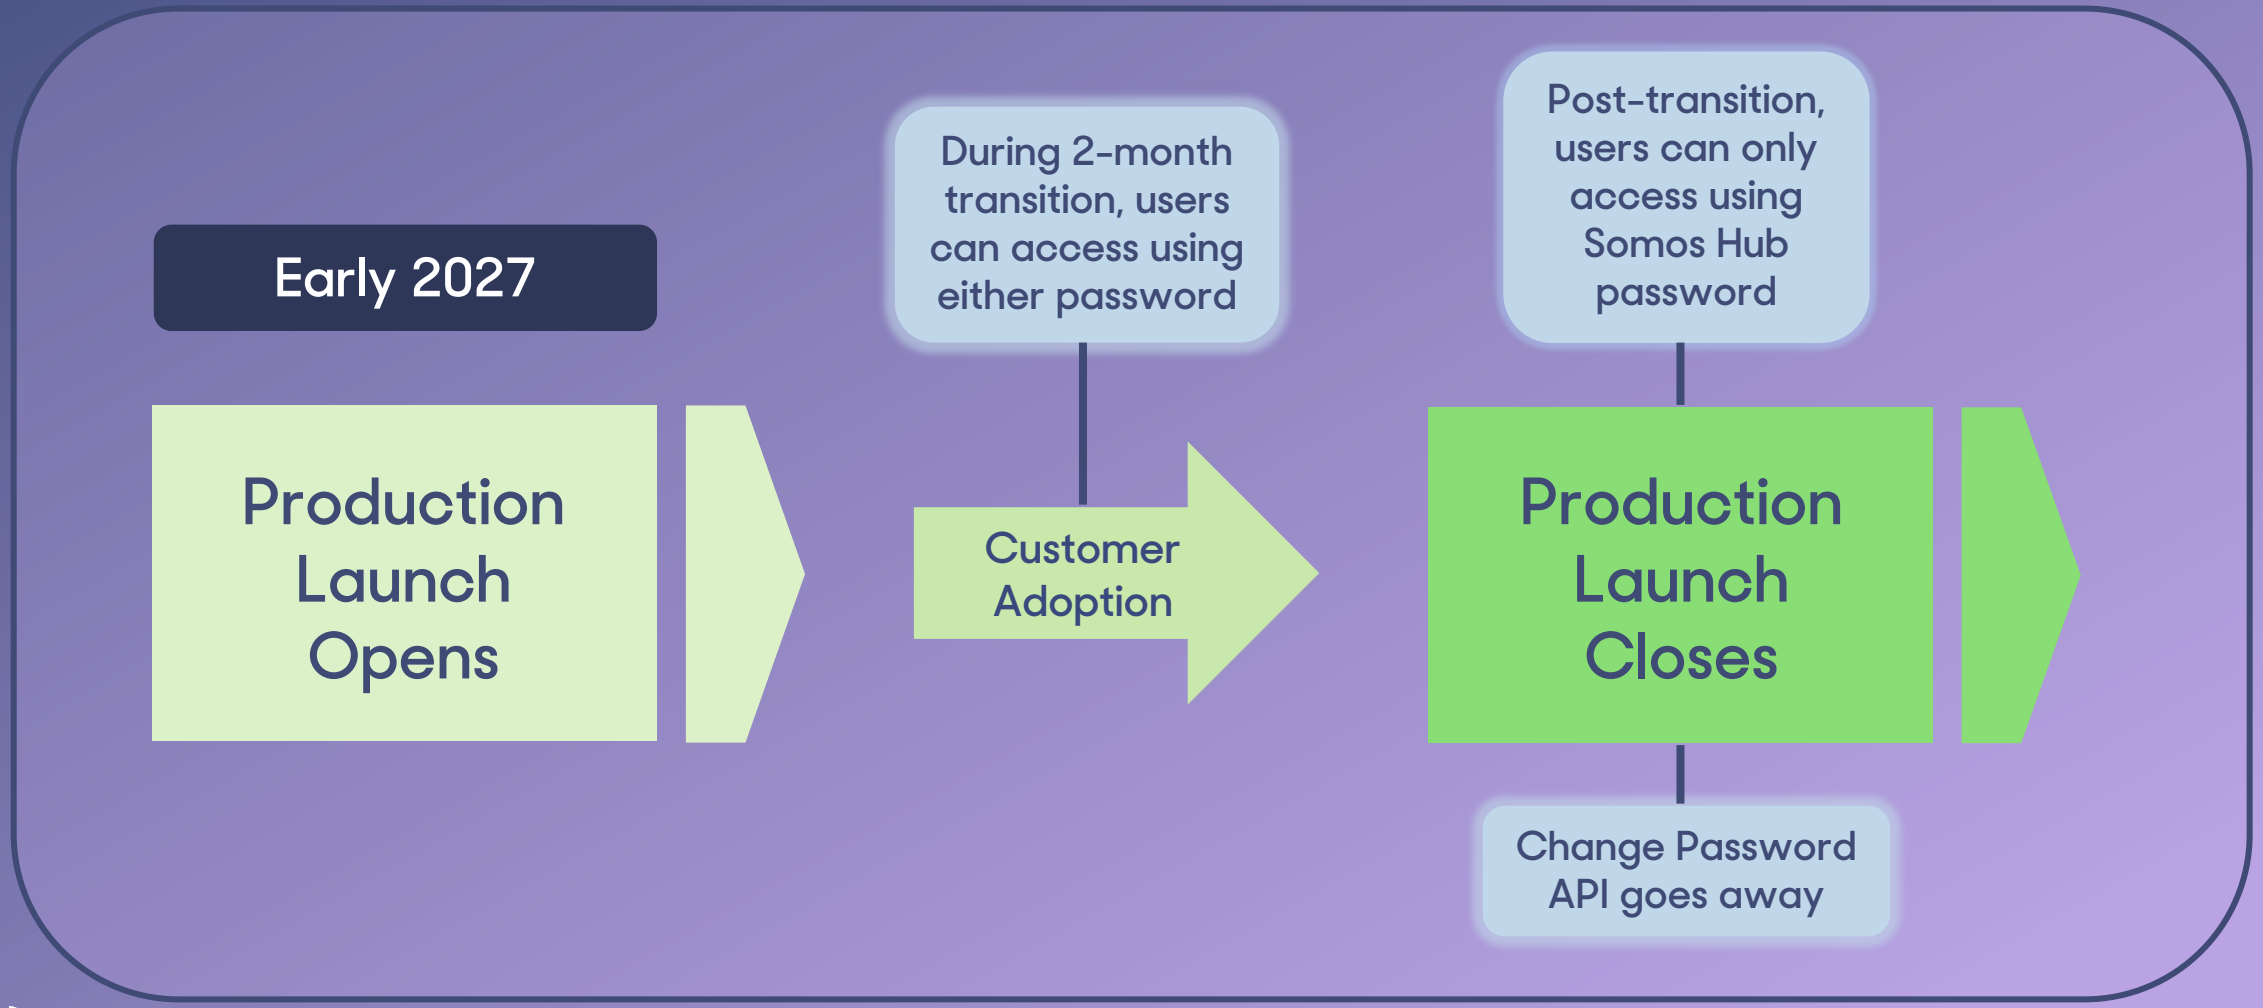

All API Users will need to setup a Somos Hub account with MFA

Authentication for your APIs will change if you are not using an API Key

⬇

You will update your API to your Somos Hub login password
